Objectives:

This webinar focuses on a lot more has changed in last year due to the pandemic, making professionals realize that their role will not stay the same in the contactless world tomorrow & the impact and importance of digital payment in India. According to the Government of India the digital payment will increase the employment, reduces risk related to cash like corruption, robbery, and carrying or storage of large amount of cash and made all transactions to be done cashless or digitalised which helps the people to transfer the money with security and safety at high speed. This step of the Indian government even attracted various investors in the country. The impact of this policy is a step towards the modernisation and globalisation by making the economy cashless. In digital payment, banking sector plays a major role by providing digital instruments like debit cards, mobile banking, mobile wallets etc.

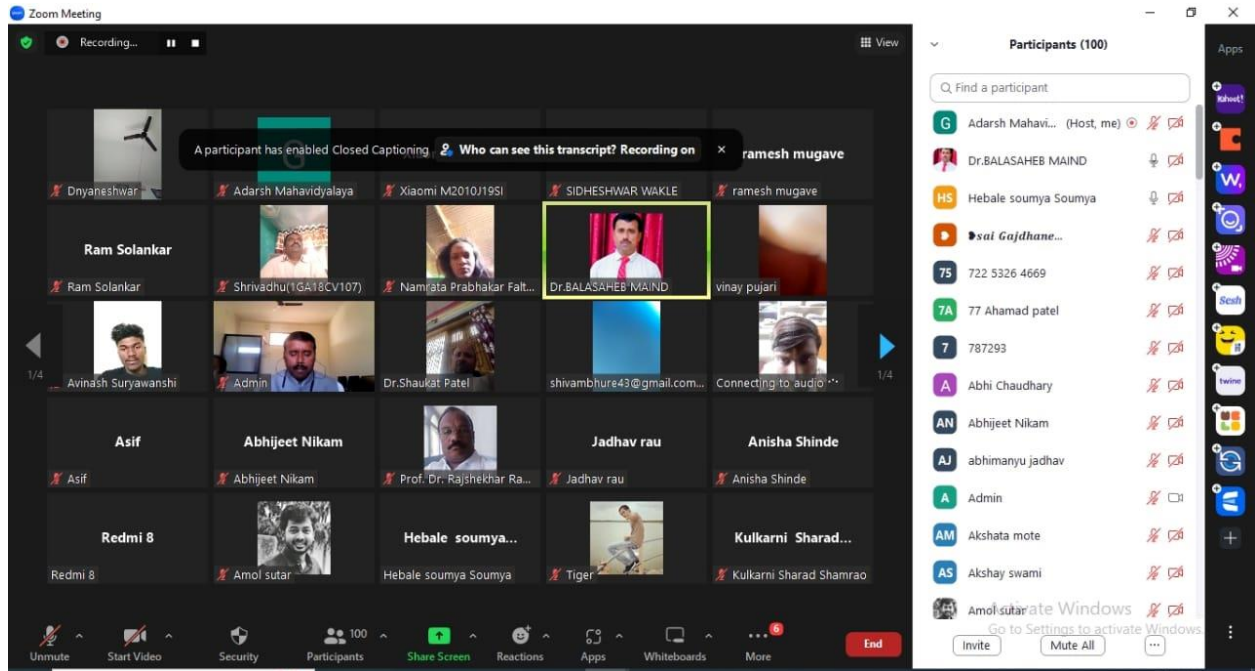

Summary of the Webinar:

The speakers started the session by providing an insight about some key topics discussed.

- How many types of Digital Payment System
- How to handle Bhim API Transactions
- Need of new technology
- 8 Habits to Stay Cyber-Safe
- Keep your devices, browsers, and apps up to date.
- If it's suspicious, report it!
- How to Use the Digital Payment System
- 92% of the world's currency is digital while 44% of businesses are up for digital transformation.
- Number of IoT devices expected to reach 75 billion by 2025.
- Cyber Security- Challenges with digitalization.
- Career opportunities, skill set required and responsibilities associated with them.
- “What kinds of technology's needs?”
- “What are the truths and myths about digital transactions?”
- “What to do after an online fraud?”

Hence, it was a really knowledgeable and interesting session. All the students and teachers thanked **Dr. Balaji Maind Sir & Jaykumar Shinde** sir for inspiring everyone. The society looks forward to conducting more such webinars in the future.
